## Office Solutions Awarded a Multi-Year Office Supplies Contract with the Jet Propulsion Laboratory

YORBA LINDA, CA (August 22, 2011) —Office Solutions, Southern California's largest independent commercial office products supplier, announced today the award of a multi-year office supplies contract with the Jet Propulsion Laboratory of Pasadena, CA. This award represents and recognizes that independent office products dealers are providing high levels of service and valued pricing to a wide range of commercial businesses and governmental agencies.

### **About Jet Propulsion Laboratory**

JPL is a federally funded research and development facility managed by the California Institute of Technology for the National Aeronautics and Space Administration. Research and development activities include managing robotic spacecraft in the exploration of Earth, the solar system and the universe. JPL has an aggressive program designed to afford small business the maximum opportunity to compete for contracts, and to place the maximum number of contracts for supplies and services with them, without decreasing the performance efficiency of any contract.
