

### Wall mount the 32oz dispenser with a drip tray

1. Mount the drip tray to the wall.
  - a. Use the included screw kit to attach the drip tray to the wall in the desired location.
2. Remove the mounting plate from the back of the dispenser.
  - a. Gently pull the mounting plate tab away from the dispenser and pull down on the mounting plate to remove it.
3. Slide the dispenser onto the drip tray. Press down until the dispenser snaps into place.
  - a. If the dispenser is hard to press down, make sure that the grooves of the dispenser are properly aligned with the grooves of the drip tray.

### Wall Mount Drip Tray Instructions

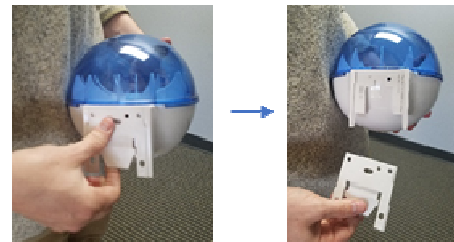

1. A diagram showing the drip tray being mounted to a wall with four screws. A callout box indicates '4x' screws.
2. Hardware Included  
A diagram showing the hardware included: a 3/16" / 5mm screwdriver, 4x screws for drywall, and 4x screws for concrete.
3. A diagram showing the dispenser being snapped onto the drip tray. A yellow arrow indicates the direction of movement.
